SUMMARY

AI engineer and one of the founders of Bronix, where I build AI powered products spanning agents, LLM integrations, and generative media. I have built agentic pipelines with VoltAgent and put Claude, OpenAI, and Fal.ai to work inside real consumer apps. I also ship fast using AI assisted development with Cursor and Claude, which keeps my output well above what the headcount suggests. I stay close to the models as they change, because half the advantage is knowing what just became possible.

EXPERIENCE

Co-Founder & Lead Software Engineer · *Bronix Software Inc.* · *50+ completed projects* 2021 – 2026

- Shipped AI-powered features across 10+ consumer products: generative image/video, chat, and agentic flows.
- Integrated LLM and generative APIs (Claude, OpenAI, OpenRouter, Fal.ai) into mobile and web apps.
- Built agentic systems with VoltAgent orchestrating multi-step, tool-using pipelines.
- Built the mobile apps and SeriesStudio pipeline using AI-assisted development with Cursor and Claude.

SELECTED PROJECTS

SeriesStudio **Open Source**
Open-source agentic pipeline turning a short series idea into full episodic video output. Built with Cursor. — *VoltAgent, Docker*

Banana Labs **Live on Web**
AI creative studio generating videos, product shoots, and images across several models in parallel. Built with Cursor. — *Fal.ai, OpenRouter, Next.js, Supabase*

NextRoom **Live on iOS**
AI interior design that redesigns any space from one photo in 12+ styles or a custom prompt. Built with Claude Code. — *Fal.ai, Flutter, Firebase*

Walkable **Live on iOS**
Navigation app using an agentic pipeline to color-code streets by walkability and safety. Built with Cursor & Claude Code. — *VoltAgent, Flutter, Firebase*

Next2Me **Live on iOS**
Couples app with AI-powered conversation questions via OpenRouter, daily streaks, swipe-to-match on movies and activities, and private encrypted chat. Built with Cursor. — *Flutter, Firebase, Railway, OpenRouter*

Toxic Flamingo **Live on iOS**
A to-do app that uses AI to nag and roast you into finishing tasks, with Rage Mode, app blocking, and a Pomodoro timer. Built with Cursor. — *Flutter, Firebase*

SKILLS

AI & Agents: VoltAgent, LangChain, Claude API, OpenAI API, OpenRouter, Fal.ai, Apify

AI Workflows: Agents, Tool Use, RAG, Prompt Engineering, Structured Output, Generative Media

AI-Assisted Dev: Cursor, Claude Code

Languages: Python, TypeScript, JavaScript, Dart, Go, SQL

Backend & Infra: FastAPI, Node.js, PostgreSQL, Supabase, Firebase, Docker, AWS, Railway

EDUCATION

B.Sc. Mechanical Engineering · Bilkent University, Ankara, Turkey · 2016 – 2021

High School Diploma (International Baccalaureate) · TED Ankara College, Ankara, Turkey · 2012 – 2016

RESEARCH

Undergraduate Researcher · *Bilkent University — Miniature Robotics Laboratory* 2018 – 2021

- Researched miniature modular robotics: foldable mechanisms and flexible spine module design.
- Best Paper Award, TORK 2019, for "Flexible Spine Module Design for Foldable Modular Miniature Robots".
